

What is El Salvador's energy sector like?

El Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisi3n Hidroel3ctrica del R3o Lempa), the rest of the generation capacity is in private hands.

What energy sources does El Salvador use?

El Salvador is increasingly turning to indigenous renewable sources of energy such as hydropower, biomass, solar PV and geothermal energy. In 2019, more than two-thirds of the country's total energy supply came from imported fossil fuels.

How much solar power does El Salvador have?

From pv magazine LatAm El Salvador's energy regular, SIGET, said this week that the country's total installed PV capacity reached 633 MW by the end of 2023. The nation's total installed power generation capacity now stands at 2.99 GW, with 638 MW from hydropower. Solar accounts for about 21.1% of the nation's electricity mix.

Can geothermal energy be used in El Salvador?

The promotion and production of geothermal energy in El Salvador will be a key area of focus. Despite a long tradition of geothermal energy use, its development has slowed in recent years with a limited number of new projects for power generation or heating applications brought online.

Does El Salvador have electricity?

In 1995, only 65.5% of the population in El Salvador had access to electricity. Currently, the electrification index is 83.4%. This coverage is higher than that in Guatemala (83.1%), Honduras (71.2%) and Nicaragua (55%) but lower than the one for Costa Rica (98.3%) and Panama (87.1%) and also below the 94.6 average for LAC.

Does El Salvador produce oil or natural gas?

El Salvador does not produce any oil or natural gas. 69.4% of El Salvador's 2019 energy supply came from oil derivatives. In 2016, El Salvador was consuming 52,000 barrels of oil per day, or 0.34 gallons of oil per capita daily.

This is just a glimpse at how El Salvador is at the forefront of efforts to embed nutrition in the food systems transformation agenda. Eyes will continue to be on the country to see how these actions unfold and how they influence El Salvador's performance on the global nutrition targets in the countdown to 2025. Time will tell.

Through AES CAESS, we serve electric energy to the departments of Chalatenango, Cuscatlan,
