

# Optimera energy Belize

What is Optimera Energy Consortium?

The Optimera Energy Consortium has been set up to take on this challenge in Nigeria and close the energy gap by developing and executing energy projects utilizing low-carbon resources such as Natural Gas. As environmental stewards, we are strongly committed to strict adherence to our Environment, Social and Governance policies.

Who is Optimera energy?

Optimera Energy is a consortium made up of Falcon Corporation Limited, FHN Gas Limited, and ND Western Midstream Limited (the "Consortium"). The Consortium has been formed in 2022 to play major part in Nigeria's energy transition with particular focus by developing and executing gas distribution.

What is the energy transition plan for Belize?

The government of Belize (GoB) has laid out its Gas and Electricity transition plan and goals, including an increase in renewables to 85% by 2033 and a reduction in energy intensity; energy intensity measures how much energy is required to produce one unit of economic output and is an indicator of climate change's effects on economies.

Which sector is dominated by hydropower in Belize?

Belize's Gas and Electricity sector is dominated by hydropower, accounting for nearly 50% of total electricity generation. Climate change could reduce reservoir

Is Belize a good place for solar power?

Belize's abundant sunshine makes it an ideal location for solar power. Indeed, in 2018, its first utility-scale solar plant opened for business - quickly growing in popularity to eventually account for more than half of the country's electricity production.

Does Belize have a climate resilience investment plan?

Belize's NDC draws heavily on both the NCCPSAP and the more detailed National Climate Resilience Investment Plan (NCRIP). It includes various mitigation commitments; however, few contain baselines due to Belize's relatively modest carbon tax base. In addition, the country is making efforts to encourage climate-smart agricultural practices.

The project by Optimera Energy, which is aimed to connect off-takers to its gas distribution infrastructure and strengthen the development of energy infrastructure within Nigeria in the race ...
