What is a SmartFlower solar panel?

The SmartFlower solar panel is a ground-mounted solar system that mimics the shape of a flower. It is unique due to its distinct design and ease of installation. The energy-capturing architecture of the SmartFlower consists of 12 petals that together form a modular fan, making it a high-tech and truly smart solar panel system.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

Is smartflower better than a rooftop solar system?

The system achieves a certain degree of self-utilization of nearly 60%, which is a significant improvement compared to a rooftop unit. A traditional rooftop solar panel has an average utilization of around 30%. Also, Smartflower reduces output losses by up to 15%.
