

Photovoltaic panel cleaning mop

How to clean a solar panel?

When cleaning solar panels, it is particularly important not to damage them during cleaning. Cleaning with pure water is one of the safest, most effective and fastest methods in professional solar cleaning. Demineralized water is obtained by one of the UNGER filter systems by deionization or reverse osmosis.

Do I need a professional solar panel cleaner?

Remember, if your solar panels are on the roof, we always recommend using the services of a professional solar panel cleaner. An expert solar panel cleaner will have the necessary training to safely shut down and restart the solar panel system before and after cleaning.

What is a wet or waterless solar mop?

This innovative mop features two sides, one wet and one dry, attached to a sturdy and adjustable fiberglass telescopic pole ranging from 4' 2" to 7' 8" (or upgrade to 6' 2" to 11' 2" pole). The Wet or Waterless Solar Mop is equipped with two microfiber chenille pads that effectively absorb dirt and gently clean the surface of your solar panels.

How to clean solar panels efficiently & ergonomically?

In this case green electricity can be generated even more sustainably - a topic that will become increasingly important in the future. A professional high-pressure cleaner in combination with a brush attachment or a roller brush and a telescopic lance are among the best ways to clean solar panels efficiently and ergonomically.

How to clean a photovoltaic system?

Brushes with soft or hard bristles are available for different surfaces. We recommend soft brushes for cleaning photovoltaic systems. If you are using cleaning agents, they should be suitable for removing stubborn, greasy soiling and mineral residues. If the water film breaks down quickly, streak-free drying without limescale stains is possible.

How much does solar panel cleaning cost?

A professional solar panel cleaner has the necessary training and equipment to carry out this task safely for you. On average, cleaning solar panels normally costs around ₹9.50 per panel. You can use our request a quote feature to obtain quotes from local solar panel cleaning experts who come highly recommended in your area.

In addition, the large working width ensures a high area coverage, which reduces the amount of work involved in cleaning the solar panel. The disc brushes have ball bearings and are driven ...
