

The PowerShaper Indoor is a modular and scalable energy storage solution designed for indoor applications. It delivers up to 50kW of power and 50kWh of LFP batteries, enabling cost-saving features like time shifting, peak shaving, ...

The Pixii PowerShaper BESS and TGN Grid have transformed Meny's approach to energy management. With peak shaving capabilities, the system efficiently manages energy consumption during high-demand periods, ...

PowerShaper XL Indoor. All product families. Markets. EV Charging. Multiply available power for EV charging and minimize electricity costs. DSO/DNSP. Decongest your grid and improve power quality. Commercial and industrial. ... Pixii AS is committed to protecting and respecting your privacy, and we'll only use your personal information to ...

The Pixii Academy is an e-learning portal designed to help partners and installers educate themselves on the latest in Pixii's modular BESS technologies and best practices. Whether you are new to the field or an experienced professional looking to expand your knowledge, the Pixii Academy has something for you.

The PowerShaper XL Indoor from Pixii is a modular energy storage system designed to maximize energy savings and revenue generation for energy oriented application through value stacking. Fully grid-ready, it supports solar self ...

We've taken delivery of the next key component of our net zero project - The Pixii PowerShaper. This is impressive piece of kit is a modular and integrated energy storage system, scalable to the power and energy required ...

The Pixii PowerShaper2 is a modular battery energy storage system that scales to your needs. It comes with smart functionality like time shift and peak shaving to reduce your energy cost, and it's fully integrated, enabling you to get the most ...

As a Norwegian company, Pixii takes pride in adhering to the highest standards of quality and security. Our robust approach to product development, manufacturing, and maintenance integrates multi-layered security protocols, well-documented product specifications, component-level traceability, online yield monitoring during production, stringent testing ...

The Pixii battery energy storage system is modular, easy to scale and quick to deploy. It comes with smart functionality, allowing you to reduce your energy costs, open new revenue streams, and get the most out of your PV installation ... Pixii PowerShaper XL family. Addressing more energy hungry applications with the PowerShaper XL family.

Darren Nankivell, Pixii Global Product Manager - Off-grid Solutions, Greater Brisbane Area Network congestion Australia's electricity grid is stretched in certain regions due to the high concentration of rooftop solar and large-scale renewable projects.

Pixii PowerBase XL - Preconfigured skid, 540kW up to 1,8MWh A practical solution for energy needs. Part of the PowerShaper XL product family, the PowerBase XL offers 530kW power and 1.8MWh storage capacity. It's designed for scalability and easy integration, making it ideal for large-scale energy demands. ...

The PowerBase XL is a high-capacity energy storage system supporting up to 9 PowerShaper XL cabinets, offering 530kW of power and 1.8MWh of storage. Designed for quick deployment and cost efficiency, it leverages value stacking to combine energy savings with revenue-generating services like peak shaving and fast frequency support.

Pixii's PowerShaper technology is modular, allowing it to grow to the community's needs. As more homes in Bondi adopt solar power and EV ownership rises, the system can be easily scaled to accommodate increasing energy demands, future-proofing Bondi's renewable infrastructure for years to come.

The system includes the Pixii Gateway controller, which provides advanced monitoring and control as well as communication and interoperability via the internet, Wi-Fi, or the wireless network. For applications requiring more power or energy, several PowerShaper cabinets can be operated as a single system. The PowerShaper is typically used in

The solution is based on the PowerShaper product family - a proven technology platform of Pixii. It will be followed shortly by a second installation in M&#252;nster. In total, PASM plans to install battery energy storage ...

The PowerShaper ID from Pixii, is an IP20 complete modular energy storage system. It is fully integrated with and ready to be connected to the grid for applications as solar self consumption, demand charge reduction, peak shaving, arbitrage and various ancillary services. Each cabinet can house up to 48kW of power conversion and 50kWh energy
