

What power plants are in North Macedonia?

Coal fired thermal power plants and hydro power plants are the main generating capacities in North Macedonia. The total installed capacity for production of electricity in North Macedonia is 2.06 GW with ~48% being thermal power plants, ~34% large and small hydro power plants, ~15% combined natural gas fired plants and ~3% other renewables.

Which country has the largest solar power plant in the region?

It is currently the largest in the region. The Western Balkans are slow in the deployment of solar power, but the list of utility-scale photovoltaic units is gradually becoming bigger. Right after a 45 MW facility in Bosnia and Herzegovina entered a trial phase, North Macedonia again became the country with the largest one in the region.

Are there solar power plants in BiH and Kosovo?

There are solar power plants under construction in BiH and Kosovo* of 150 MW each in peak capacity. Another one, of 140 MW, is being built in Albania. *This designation is without prejudice to positions on status and is in line with UNSCR 1244/99 and the ICJ Opinion on the Kosovo declaration of independence.

Where is Mey energy's new solar power plant located?

Mey Energy said it finished its 55 MW solar power plant in the municipality of Novaci, in the heart of the country's coal industry. The system was built next to the Suvodol open pit. The company founded in 2020 announced it would start producing electricity before the end of the month.

North Macedonia's federal government stated it has actually signed contracts with Bulgarian solar energy group Solarpro Holding [BUL:0 S8] and Turkish Fortis Energy Electric for the building and construction of photovoltaic nuclear power plant of combined 100 MW worth 70 million euro (\$83.6 million).
