Who is Westech-solar energy?

With more than 10 years of experience, Westech-Solar Energy GmbH is a competent partner in the renewable energy market. Whether you are a private individual or a company, we supply you with systems and components relating to photovoltaics, solar and solar thermal energy.

Is solar power a growing source of energy in Portugal?

Solar power is a growing source in the Portuguese energy mix. At the end of 2020, solar power installed capacity totalled 1.03 GW and represented 3.6% of total power generation in 2020. Portugal has set a goal of between 8.1 GW and 9.9 GW in installed capacity by 2030.

Why is wind energy important in Portugal?

Wind energy remains a crucial component of Portugal's electricity production, accounting for 25% of the total. Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way.

How can Portugal meet growing energy demands in a sustainable way?

Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way. These efforts align with European Union objectives, such as the RePowerEU plan and the Renewable Energy Directive, which targets 42.5% renewable energy in total consumption by 2030.

What is the largest solar power plant in Portugal?

On 9 October 2021, the largest solar power plant in Portugal was inaugurated in Alcoutim. With an installed capacity of 219 MW, the power plant has 661,500 solar panels and can power the needs of 200,000 homes. It occupies an area of 320 hectares and will prevent the emission of 326,000 tons of carbon dioxide every year.

How will Portugal increase its renewables installed capacity?

Portugal's short term strategy to increase its renewables installed capacity will be through solar PV and offshore wind tenders - with the first tender dedicated to solar being held only in 2019 and with some of the lowest prices recorded at the time.
