A solar generator uses solar panels to capture renewable energy from the sun and store it as electricity in a portable power station. Solar generators provide a reliable green energy solution whether you're on the go, off-the-grid, or need emergency power during a blackout.

Well, the price of a solar-driven generator depends on its capacity and size. It can range from INR7,988.88 to INR79,885.90. So, if you choose a low-power generator of up to 15 watts, you will have to pay less. ... 3 kW Solar ...

I recently researched solar panels replacing the conventional electric. In India It'll take about 3 to 3.5 lakhs for 5kw of setup for solar panels including UPS, batteries and circuits. 1kw of solar panels will generate 4-5 units of electricity a day. So, my calculation is a regular home in India that consumes at least 250 - 300 units in a month.

We are offering home generator at best price in India. Find a huge rage in portable home DG Set. To get more information, enter your name & phone number. Receive the best quotation & seal the deal. ... But if you want
