

Price solar panels Somalia

What is the price of electricity in Somalia?

Somalia, September 2022: The price of electricity is 0.000 U.S. Dollar per kWh for households and 0.000 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

Why is solar funding important in Somalia?

This form of funding, which allows small, regular, phased out payments, has been particularly critical in Somalia as it allows micro, small and medium size businesses to overcome the hurdle of high upfront costs associated with acquiring quality solar systems to address energy challenges.

What is the World Bank doing about solar power in Somalia?

The World Bank's Somalia Electricity Access Project has deployed \$3.0 million towards electrification of households and businesses through standalone solar home systems, and the Bank is using an additional \$1.0 million to facilitate analytical work for enabling electrification through solar-powered hybrid mini-grids.

Can businesses use electricity in Somalia?

"As businesses, we were only allowed to use electricity to keep the lights on and sometimes charge our mobile phones." It was not enough that electricity supply was unreliable; at 35.3%, Somalia's electrification rate trails the East Africa average rate of 39.8% and the Sub-Saharan Africa average of 47.7%.

What is the Somali business Catalytic Fund (SBCF)?

The change of fortunes has been made possible through the Somali Business Catalytic Fund (SBCF), a \$13 million matching grant operation under the World Bank-supported Somali Core Economic Institutions and Opportunities Project (SCORE).

But energy experts say with the longest coastline in mainland Africa and an average of 10 hours of sunshine per day, Somalia has great potential for onshore wind and solar power. Somalia's private power companies rely on imported diesel to meet demand, making Mogadishu power cost more than three times the price of the global average.

A solar energy project with a production capacity of 3.5MW was recently inaugurated in Somalia. The project is meant to meet the electricity needs of Bosaso, the commercial capital of the state of Puntland.
