Can solar power be stored in a battery?

Existing solar systems typically have solar inverters which change the DC power produced by panels to AC power that can be consumed in your home or exported onto the grid. But if you want to store that AC power in a battery, it needs to be inverted again to DC power.

The Hampton Bay Lithium Phosphate Solar Rechargeable battery comes in a package of two. Bionic Spotlight is the solar-powered light that turns on automatically when it detects motion, up to 25 ft. away. Best of all Bionic Spotlight does not require wiring or batteries, so you save money. Just place your Bionic Spotlight where the solar panel can soak up the sun. The solar panel then collects the sun's energy and charges it.
