## Samoa weco energy storage system

Samoa has a target of 70 per cent renewable energy use by the end of 2031, transitioning to a mix of solar, wind and hydropower augmented by battery storage. Context is crucial when ...

Weco Energy Storage System Households tend to use most of their electricity during the evening and night time when the solar panels are no longer producing power. Even during the daytime, there is a constant mismatch between power produced by a solar array and consumption, so you are constantly importing or exporting electricity.
