Who sponsors Senegal's solar power plants?

The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering process was led by Senegal's Energy Regulatory Commission (CRSE). For more information, please read the press release here.

How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

Does Senegal need a solar power plant?

Senegal's power sector has been historically reliant on costly fuel imports, with about 80 percent of its energy mix being oil-based. "The Kael and Kahone solar power plants exemplify our commitment to supporting Senegal's transition to cleaner, more affordable energy, while creating business opportunities for local communities.

Who is Oolu solar?

Oolu was one of the first firms to successfully scale PAYG solar technology in the West African market. The company has grown from start-up to market leader in Senegal, Mali, Burkina Faso and Niger with operations in Nigeria. In 2021, the company raised US \$8.5 M in series B funding led by RP Global, an Austrian-based energy investor.

Does Senegal have access to electricity?

The competitive tendering was led by Senegal's Energy Regulatory Commission (CRSE). Although the proportion of Senegalese people with access to electricity has increased sharply over the past 30 years, nearly a quarter of the population still lacks access.

Which solar power plants are the cheapest in Sub-Saharan Africa?

"Proparco is delighted with the successful commissioning of the Kahone and Kael solar power plants, which constitutes a new milestone in Senegal's low carbon transition. The price of the electricity produced by these projects is one of the cheapest in sub-Saharan Africa.
