The Droogfontein Solar Power project is located 20km outside Kimberley, in the Sol Plaatje Municipality in the Northern Cape. It occupies approximately 100 hectares of land leased from the Droogfontein Communal Property Association. The facility generates electricity using 168 720 solar (PV) panels and feeds the 132kV Eskom distribution system.

The Kimberley Solar Roof Ventilator is designed to take advantage of free and clean solar energy to protect your home from airborne moisture related damage to building materials. Moisture and humid air gathers in the roof cavity and condense into water droplets when the roof cools. Activities such as showering, cooking and doing the laundry add to this, ...
