How to buy a solar system on Sint Maarten?

Many banks already offer so-called "green loans", financing the purchase of your solar system on Sint Maarten for a monthly installment that may be even lower than the monthly price you pay for electricity now. Evendo the calculation below is as up to date as possible, it is still an indication.

How much does electricity cost on Sint Maarten?

On Sint Maarten, the costs per Kwh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Sint Maarten, please have a look at your electricity bills and calculate the average amount of Kwh you use and the money you spend on electricity per year.

What brands of solar panels do you carry?

The brands I carry are SunPower, Mission Solar, Solaria, Trina and Panasonic. Sunpower, Trina and Panasonic panels are among the brands who manufacture panels with the highest efficiency in the world (>20%). Our preferred inverters: SMA (Sunny Boy) and Fronius. German and Austrian engineered, made in the USA.

Size: 2384\*1303mm Key Features: Unprecedented Power Output: The Trina 665W is engineered for remarkable power generation, boasting a staggering 665 watts of energy. Leveraging cutting-edge technology, it maximizes electricity production from sunlight, making it an ideal choice for residential and commercial application

75MW Zeerust Solar is part of Round 4 of the South African Government's Renewable Energy Independent Power Producers Procurement Programme (REIPPPP) and one of four projects approved for the North West Province. The solar plant, which connects to the close-by Kameeldoorn switching station, comprises 250 080 solar modules and stands on 179 hectares ...

Benefits of Solar Systems for Homes. 1. Energy Independence: Solar power systems allow homeowners to generate their own electricity. This means less reliance on the national grid and freedom from the unpredictability of blackouts and load-shedding.

This omission could hinder the growth of decentralised renewable energy generation and limit the benefits of solar energy expansion. Encouraging decentralised solar energy production could significantly contribute to St. Maarten's overall energy mix, reducing strain on NV GEBE's infrastructure and fostering a more sustainable energy ...
