

What are Slovak Republic's energy policies?

Slovak Republic's recent energy policies have made significant progress. Along with its neighbours and with support from the European Union, the country has strengthened cross-border connections for electricity, natural gas and oil, improving its ene

How did Slovakia reduce its reliance on natural gas in 2022?

In 2022 Slovakia sought to reduce its reliance on natural gas from Russia who was supplying 81% in 2020. In order to lower reliance, a gas pipeline interconnector with neighbouring Poland was completed by August 2022 and put into operation in a bilateral opening ceremony on the 26 August 2022.

What is the priority of the Slovak Republic in the energy sector?

The priority of the Slovak Republic in the energy sector is to ensure synergy between sub-policies, cost efficiency, enforcement of the principles of sovereignty in the energy mix, preservation of competitiveness and energy security.

How much energy does Slovakia use?

Primary energy use in Slovakia was 194 TWh and 36 TWh per million inhabitants in 2009. Slovakia has a plan to get renewable sources of energy up to 19.2% by 2030. From 2024, following the completion of two new nuclear reactors, Slovakia will return to being a net exporter of electricity. Slovnaft is the largest oil refinery in Slovakia.

Will Slovakia be a net exporter of energy in 2022?

Slovakia has a plan to get renewable sources of energy up to 19.2% by 2030. From 2024, following the completion of two new nuclear reactors, Slovakia will return to being a net exporter of electricity. Slovnaft is the largest oil refinery in Slovakia. In 2022 Slovakia sought to reduce its reliance on oil from Russia.

Why is energy security important in the Slovak Energy Strategy?

With high dependency on energy imports, energy security is one of the priority topics of the Slovak national energy strategies. This provides a good basis for further developing the energy security dimension in the final plan, with objectives and policies and measures clearly described.
