F.J. Martínez-Moreno et al. relied on the extensive and detailed study developed by Gesto, in 2010, for the development of the "Renewable Energy Atlas of Cabo Verde", to publish, in the prestigious "Journal of Applied Geophysics", an article about the water prospection in volcanic islands by Time Domain Electromagnetic (TDEM) surveying. The article was accepted in the ...

3 Congreso Smart Grids; 2 Congreso Smart Grids; Guía para Empresas; Inicio > Generar Electricidad > Acuerdo entre Canarias y Cabo Verde para reforzar el desarrollo de las Energías Renovables > canarias-acuerdo-energias-renovables. canarias-acuerdo-energias-renovables. Publicado: 21/03/2017.

Praia, December 5, 2023 - The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) and the Foundation Smart City Cabo Verde have signed a memorandum of understanding aimed at spurring innovation in the field of renewable energy and energy efficiency in Cabo Verde.

INTRODUCCIÓN . Las redes inteligentes también conocidas como Smart Grid (SG), surgieron como una respuesta a la necesidad de modernizar la red eléctrica, articulando los procesos de control y monitoreo con tecnologías verdes, también conocidas como no contaminantes o ecológicas. Las redes inteligentes permiten que los recursos energéticos distribuidos, por sus ...

TABLE II: Grid strength's typical metrics. Grid Strength Metric Strong Grids Weak Grids SCR > 10 < 10 or < 5 SCC > 0,9 < 0,9 X/R = xrr > 0,7 < 0,5 islands. The core of the dataset is a number of excel files (e.g. SantiagoData) that characterize the data defining the system's topology. Said files contain different sheets (e.g.

This study explores the application of low-cost sensor networks for air quality monitoring in Cabo Verde islands, utilizing Clarity Node-S sensors to measure fine particulate matter with diameters equal to or smaller than 10 µm (PM10) and 2.5 µm (PM2.5) and nitrogen dioxide (NO₂) gasses, across various locations. The sensors were strategically placed and ...

Smart grids present many benefits for both consumers and utilities, ranging from cost-effective electricity, improved reliability, enhanced grid management and integration of renewable energy. Despite these advantages, some utilities lag in recognizing the significance of smart grids, failing to grasp the implications of renewable intermittency ...
