The Company began trading in November 2012, being set up by Elliot Lee who has over 16 years of experience in the Electrical Industry. The catalyst for creating this new Company was concern over the lack of consistent and reliable information for customers wanting to know more about their energy usage and the best options for reducing that usage.

Our engineers will design a bespoke solution to suit your energy needs by assessing your roof using HD aerial images. This allows us accurately determine the best layout and evaluate any potential shading issues so that your system can function optimally. ...
