

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Lagua Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules. Manufacturing hub

How much solar power does Algeria have?

By the end of 2023, Algeria had 437 MW of solar generation capacity, according to the national Commission for Renewable Energies and Energy Efficiency (CEREF). The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m²/year in the north and 2,263 kWh/m²/year in the south.

Why should Algeria invest in solar energy?

Algeria's concerted efforts in expanding solar energy underscore its commitment to sustainable development and position the country as a prominent player in the global renewable energy arena. Loading...

Who will fund solar projects in Algeria?

The Algeria government is to fund the solar projects. Sonelgaz has signed 19 contracts with local and international companies to construct solar PV plants across Algeria.

What are Algeria's New 3 GW solar tenders?

Algeria's new 3 GW solar tenders mark a major shift in its energy landscape, aiming to expand solar beyond remote areas and develop a local renewable energy sector. With high solar potential, the tenders reflect Algeria's commitment to reduce its reliance on gas and boost domestic solar capacity.

500 kW - 20 MW US\$0.136/kWh* (equiv. to EGP0.973) 15 years 20 - 50 MW US\$0.1434/kWh* (equiv. to EGP1.025) 15 years *Projects above 500 kW will have price guarantees in U.S. dollars to mitigate ...
