CleanCapital is a commercial asset owner focused on accelerating the energy transition through strategic investments in middle-market solar and energy storage. It has invested more than \$900 million to date in projects and companies that align with that mission. In April, the company announced a \$300 million commitment from Manulife.

Avoid Generic Names: Steer clear of generic names like "Solar Solutions" or "Green Energy Company." These names are often overused and can make it challenging to stand out. **Don't Use Acronyms:** While acronyms might seem efficient, they can be confusing to potential customers. It's better to use a name that conveys your message more clearly.

Choosing the right name out of many possible solar company names for your company is a crucial step in building a brand that resonates with your target audience and stands out in the renewable energy market. A great name not only reflects your company's mission and values but also helps you attract and retain customers. To inspire your ...

The solar energy system provides power to your home during the day and charges the batteries. Excess energy is exported to the utility grid. The utility will credit you for every kilowatt-hour exported to the grid. Why would I want battery storage with my solar energy system? Battery storage is the missing piece to the solar energy puzzle.
