

How to calculate the optimal azimuth angle for solar panels? The sun's position in the sky changes hourly as well as monthly. With that, solar energy received per unit area per unit time--i.e., solar irradiance--also changes. For a particular location, the peak solar irradiance is when the sun is overhead.

Over decades solar industries are booming in India and also government wants people to utilize the solar energy as much as possible. So, by installing the solar panels we can able to use as ...
