FortisTCI, the energy provider in the Turks and Caicos Islands, is making significant strides in constructing the country's first utility-scale solar plus battery microgrid on its property in Kew, North Caicos. The project began last year and has reached a critical milestone, with installation of the solar PV system now underway.

Solar panels are renowned for their low maintenance requirements, offering decades of service with minimal intervention. In the Turks and Caicos Islands and the Bahamas, where solar energy is increasingly popular, this aspect is particularly appealing to homeowners and businesses alike. Regular, simple care is all it takes to maintain their optimal performance.

Concepcion Tarlac 2 Solar Project is a 150MW solar PV power project. It is planned in Central Luzon, Philippines. The project is currently in permitting stage. It will be developed in single phase. The project construction is likely to commence in 2022 and is expected to enter into commercial operation in 2023.
