

Who is Qatar Solar Energy?

Toggle Sliding Bar Area Qatar Solar Energy With more than 15 years of research and development with the board members in the solar photovoltaic industry, QSE has become the first vertically integrated PV manufacturer in the MENA region, producing silicon ingots, silicon wafer, PV cells up to the end product &#171;PV modules&#187;.

How many solar PV projects are there in Qatar?

The installed capacity of solar power generation in Qatar was recorded as 5.1MW, as of 2020, which is far from the required targets to have a considerable share of renewables in the energy mix. Thus umpteen solar PV projects are lined up to boost the capacity in the nation.

How will Qatar's Solar energy industry evolve in the near future?

The various milestones in the technological innovations associated with Qatar's solar energy industry are likely to accelerate the market in the near future. The renewables-based power generation in the country was around 43MW, as of 2020, which is almost negligible as compared to the fossil fuels penetration (13099MW).

Why should you choose solar thermal system in Qatar?

The success of our approach speaks for itself. We have developed solar systems installations across Qatar and these are increasing in size and number with each passing year. Solar thermal system is used to heat water, in Partnership with World top thermal brands, and we provide all kind of thermal products to meet all hot water demands.
