

Is Taiwan a good place to invest in solar energy?

Around 89 billion TWD will be invested in the development of ground-mounted systems alone. In Taiwan, Germany is considered a pioneer of the energy transition and German companies enjoy an excellent reputation. For German companies, Taiwan is a promising market and offers considerable opportunities in the solar energy sector.

What percentage of Taiwan's electricity is generated by solar PV?

Solar PV accounted for 19% of Taiwan's total installed power generation capacity and 5% of total power generation in 2023.

What is the outlook for the Taiwanese solar market?

As the outlook for the Taiwanese solar market looks bleak, Motech has concentrated efforts on overseas markets, which contribute more revenue than the domestic market, he said. Solar panel installation in Taiwan is expected to plummet about 37 percent year-on-year to 1.7 gigawatts, compared with 2.7 gigawatts last year, Motech estimated.
