Who is Solaris energy infrastructure?

Guided by Results. Formed in 2014, Solaris Energy Infrastructure delivers reliable equipment and technology integrating proven energy solutions, in-house expertise and customer-centric service. We are a forward-thinking, growth-oriented company that offer turnkey solutions to traditional challenges that deliver results project after project.

How many MW will Solaris Power Solutions generate?

Solaris Power Solutions Growth Capital Update The Company recently placed orders for 9 additional 16.5 megawatt ("MW") gas-fired turbines to support rapidly accelerating customer demand, totaling approximately 145 MW in incremental generation capacity. Solaris now expects to exit first quarter 2026 with approximately 680 MW of generation capacity.

What is Solaris integrated solutions?

Solaris Integrated Solutions deliver comprehensive, automated systems to optimize your wellsite's safety, efficiency and execution. Our technology innovations and patented equipment revolutionizes the way proppant, water and chemicals are delivered, loaded, stored and processed at your wellsite.

Does Solaris have a power-as-a-service offering?

"Demand for Solaris' power-as-a-service offering continues to exceed our available capacity, providing us with the confidence to place this additional equipment order," commented Bill Zartler, Solaris' Chairman and Chief Executive Officer.

Why should you choose Solaris?

Reduce trucking demurrage and non-productive time with reliable last mile logistics service, dedicated round-the-clock support and real-time tracking at every point in the supply chain. Inspired by Innovation. Guided by Results. Solaris delivers comprehensive, automated systems to optimize your wellsite's safety, efficiency and execution.

Why did Solaris increase its fourth quarter 2024 EBITDA guidance?

The Company is increasing its fourth quarter 2024 Adjusted EBITDA\* guidance to a range of \$36 million to \$39 million, compared to its prior expectation for a range of \$33 million to \$36 million. The primary drivers behind the updated range are continued enhanced utilization levels and improved cost absorption in the Solaris Power Solutions segment.
