

Solarx smart energy Macao

Can Macao increase solar energy?

The Macao government also sees an opportunity to increase solar energy. To encourage the installation of PV systems, officials passed a set of safety and installation regulations in 2015.

What is Solarx smart energy management system?

SolarX smart energy management system gives you total control over your energy usage, enabling smarter, more efficient energy solutions for your home or business. Whether you're aiming to reduce electricity bills, lower carbon footprint, or optimize energy consumption, our energy management system makes it all possible.

What payment options does SolarX offer?

We offer a number of payment options that include partial or full financing, in order to make the sustainable energy accessible to everyone. SolarX is a collective of experts striving to build a more sustainable world powered by renewable energy. We make the transition to renewable energy trouble-free and affordable for our clients households.

Is natural gas a problem in Macao?

As a member of the Smart Energy Group of UM's State Key Laboratory, which focuses on optimising clean energy use and production, Zhang believes expanding the use of natural gas poses major problems, especially in the city's older districts. "Many buildings and [much of the] infrastructure in Macao are outdated.

Does Macao have a climate problem?

As a commercial hub, Macao faces the same challenge. Energy consumption from electricity, transport and buildings accounts for nearly 90 per cent of Macao's carbon emissions directly caused by fossil fuels. With climate change posing grave threats to the future of society, city leaders say they have made reducing emissions a priority.

Will the Taipa-Macao natural gas pipeline be operational in 2022?

To increase the use of natural gas, Nam Kwong Natural Gas Company Limited, a major supplier of energy products in Macao, completed the construction of the Taipa-Macao underwater natural gas pipeline in March. The company predicts the pipe will be operational in mid-2022.
