

What will Prony resources New Caledonia do with solar energy?

Per a 25-year renewable power purchase agreement, the clean energy produced from the solar projects will supply power to industrial operations of Prony Resources New Caledonia. TotalEnergies will use its expertise in solar projects to build a 160-MW solar project, with the first phase of 30 MW expected to come online by 2023.

What will TotalEnergies do in New Caledonia?

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

Why do we support New Caledonia's energy transition?

We are very proud to support their energy transition, and that of New Caledonia, said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly. Our two companies are committed to protecting natural resources and biodiversity, and to improving the situation of local communities.

New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered "the most beautiful lagoon in the world"; ...

New Caledonia has always supported renewable energies, in particular the installation of solar water heaters thanks to various types of aid for the last 10 years. Syrius Solar New Caledonia has a permanent stock of solar water heaters thanks to its Caledonian manufacturing plant and can thus respond quickly to any request.

Unveiling our latest innovation in solar technology, our Monofacial-Black PV module represents a pinnacle in efficiency and aesthetic appeal. Engineered with precision, this module boasts a weight range of 14 - 28 kg and an impressive output from 255 to 560 kilowatts, ensuring optimal performance across various applications.

Gujarat's energy infrastructure is all poised for a massive windfall, with Surat-based Solex Energy Ltd. planning to invest INR 8,000 crore (\$952 million) toward advancing solar technology and scaling operations until 2030. ... setting a new standard for solar energy generation in India.
