Conoce nuestros niveles de servicios. Con Soluna el cliente decide. Selecciona el nivel de servicio que mejor te convenga y utiliza tus aparatos por ...

Soluna provides a cost-effective alternative to battery storage or transmission lines. Soluna uses technology and intentional design to solve complex, real-world challenges. Up to 30% of the power of renewable energy projects can go to waste. Soluna's data centers enable clean electricity asset owners to "Sell. Every. Megawatt."

Support for Innovation: With Soluna's advanced infrastructure, SF Compute will have the resources to develop and deploy AI applications while maintaining optimal performance and energy efficiency.

Soluna CEO John Belizaire said: "Our vision is to power the blockchain with clean, renewable energy that we own and control. "Soluna will address the growing demand for energy to power today's growing blockchain networks, and will create the world's first "service node", providing high-density computing for future blockchain ...
