How much does a solar system cost in Sri Lanka?

Residential solar installations in Sri Lanka typically start at around 500,000 LKR to 750,000 LKR for basic setups. With a budget of 500,000 LKR, you can generally expect a solar system producing approximately 2 kW to 3 kW of power. If you have a budget of 750,000 LKR, the system size might range from about 3 kW to 5 kW.

How long does a solar installation last in Sri Lanka?

The payback period for industrial solar installations in Sri Lanka typically ranges from 3 to 4 years. Efficient project designs and use of high-quality components contribute to favorable ROI. The upfront costs for a factory-sized solar installation can be significant.

In Colombo, Western Province, Sri Lanka, situated at a latitude of 6.9394 and longitude of 79.8476, solar power generation is highly viable due to the city's consistent sunlight exposure throughout the year. The average energy production per day for each kilowatt (kW) of installed solar capacity varies slightly by season: it is approximately 6.03 kilowatt-hours (kWh) in ...
