

Sun power investment Iraq

Does Iraq have a solar power plant?

The contracts also cover a water intake project for injection into oil reservoirs. The solar power plant will be Iraq's first utility-scale solar power project. While the country has several other solar plans in the pipeline, the TotalEnergies project is the first to proceed to the implementation phase.

What is Iraq's solar project?

The project aims to improve Iraq's electricity supply and increase regional oil production while also recovering flared gas and building a seawater treatment plant. The Saudi company ACWA Power has been invited to join the solar project.

Will totalenergies build a solar power plant in Iraq?

French energy major TotalEnergies will build a 1-gigawatt solar power plant in Iraq as part of a cluster of contracts it was awarded in 2021 for an integrated project that entails a total investment of \$27 billion over 30 years.

Will ACWA Power join a solar project in Iraq?

TotalEnergies will invite ACWA Power, a Saudi company, to join the solar project in agreement with Iraqi authorities. The project is expected to attract foreign investment and support the country's transition to renewable energy.

Is the Sun a good source of energy for Iraq?

An important day for Iraq in its journey towards green energy. One of the essential tools Iraq has in its fight against climate change is the infinite potential of the sun as a source of energy.

How much solar power does Iraq have in 2023?

According to the latest statistics by the International Renewable Energy Agency, it had just 1,599 megawatts of renewable energy capacity at the end of 2023. Iraq has abundant untapped solar resources that could allow it to achieve its target and reduce reliance on imports of electricity.

Germany's Siemens will upgrade one of the country's largest gas-fired power plants. Under a new contract, Siemens will add 650 megawatts (MW) to Shatt Al Basra Gas Power Plant, which currently has a power generation capacity of 1,250 MW and consists of non-Siemens turbines operating in simple-cycle mode.
