The Tesla Powerwall 2 is a fully integrated AC battery system for residential or light commercial use. Its rechargeable lithium-ion battery pack provides energy storage for solar self-consumption, time-based control, and backup. Powerwall's electrical interface provides a simple connection to any home or building.

Since each Powerwall has 13.5kWh of energy, I basically used 1 Powerwall worth of energy overnight. But my app said I was at 50%, not 67% (as you'd expect with 3 Powerwalls). I did similar measurements and calculations over several days and concluded that my system was behaving as if I only had 2 Powerwalls, not 3 (even though the app always ...
