

Three Guarantees for Photovoltaic Inverters

Which solar inverter has the strongest warranty?

Based on our ranking system, Hoymiles, SolarEdge, Tigo, SMA, and Enphase have the strongest warranties. What is a solar inverter? Inverters are the unsung heroes of solar energy systems. Without them, you wouldn't be able to harness the power of your solar panels to power your home.

Does a solar inverter have a warranty?

Labor and shipping expenses are generally not included in solar inverter warranties, but some of the strongest brands will cover one or both of these costs. Based on our ranking system, Hoymiles, SolarEdge, Tigo, SMA, and Enphase have the strongest warranties. What is a solar inverter? Inverters are the unsung heroes of solar energy systems.

Do you need an inverter for a solar energy system?

Inverters are the unsung heroes of solar energy systems. Without them, you wouldn't be able to harness the power of your solar panels to power your home. Solar panels generate direct current (DC) electricity, but most home appliances require alternating current (AC) electricity.

How long do solar inverters last?

Standard string inverter warranties are usually between 5 and 10 years; as this is less than the warranties on solar PV panels it would seem sensible to budget for at least one string inverter replacement during the lifetime of your solar PV system. If you have micro-inverters installed instead this may not be necessary.

How long is a SolarEdge inverter warranty?

The SolarEdge inverter warranty is extendable to 20 or 25 years, depending on inverter model. We manage a rapid RMA process and generally ship a replacement unit within 48 hours, if the reported defect is eligible for coverage under the Limited Product Warranty.

Which Inverter should I buy?

However, the best inverter for you largely depends on your system's unique needs: A 25-year microinverter warranty may rank higher than a 12-year string inverter warranty, but the string inverter may be better suited for your system and, therefore, more valuable to your investment.
