

Is biomass a source of electricity in Turkmenistan?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Turkmenistan: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Is Turkmenistan the Tiger of Ashgabat?

The tiger of Ashgabat, if it ever was, is no more. Earlier this year, it appeared that Turkmenistan, of all the Central Asian states, might be the one to weather the storm of depressed oil prices and decimated remittance returns battering the region.

Should Turkmenistan export gas to Russia?

Turkmenistan, however, prefers to remain neutral and maintain positive relations with Moscow, which would be at risk if the country decided to export its gas to Turkey bypassing Russia. Moreover, Russia's plans to divert its trade and gas export routes towards Asian markets potentially offers a prominent role for Turkmenistan.

Why is Turkmenistan facing geopolitical competition?

Isolated but natural gas-rich Turkmenistan has recently become a subject of geopolitical competition owing to the energy crisis in Europe and Western energy sanctions imposed on Russia as a consequence of its invasion of Ukraine.

Why did Turkmenistan refuse to join OTS?

Turkmenistan's decision to refrain from joining OTS was met with approval in Moscow. Faced with Western sanctions and blocked access to Western markets, Russia needs new strategic partners and alternative trade and energy export routes. Hence Russia's recent overtures to Turkmenistan and efforts to deepen the strategic partnership with Ashgabat.

Is Turkmenistan cutting its budget?

While Kazakhstan's currency continues its record tumble and Kyrgyzstan and Tajikistan continue experiencing precipitous remittance drops, Turkmenistan has begun making noise about cutting its coming budget.

work Convention on Climate Change calls for a National Development Programme for Renewable Energy Sources in Turkmenistan until 2010 (Ministry of Nature Protection et al., 2010). The programme will increase the utilization of renewable energy sources. In June 2012, the President approved the National Strategy on

China and India-the two large expanding economies of the world-being not endowed with enough oil and gas, are heavily relying on imports to sustain their growth. The physical proximity of both these countries makes them deal with some of the oil/gas rich countries in their common neighborhood to secure energy through
