How much money has URC24 contributed to Ukraine's energy sector?

The Group has so far been able to mobilize more than USD 5 billion in support of Ukraine's energy sector, including more than USD 1 billion committed since URC24 in June as a reaction to the intensified Russian attacks.

How has Russia impacted Ukraine's energy system?

Since October 2022, Ukraine's energy system has been one of the main targets of Russia's brutal military attacks. Russia has escalated its attacks since March 2024, causing significant damage to Ukraine's power generation capacity and further endangering the Ukrainian people's access to critical services.

Is the Ukraine energy support fund restoring domestic generation capacity?

While the Ukraine Energy Support Fund is currently restoring and installing 2 GW of domestic generation capacity ahead of winter, a significant gap to cover the restoration needs still remains. We therefore encourage the international community to continue contributions.

Why do we reaffirm our commitment to Ukraine?

We reaffirm our strong commitment to the territorial integrity, independence, and sovereignty of Ukraine within its internationally recognised borders and to focus on the key priorities needed to achieve a comprehensive, just, and lasting peace based on international law, notably the UN Charter and its principles.
