Our production process is based on the proprietary technology, Carbonex, developed by the SOLER Group and implemented in every production site of the Group. Carbonex is an industrial scale solution designed to convert wood and other biomass residues into biocarbon, electricity and other by-products which support the industrial transformation to climate neutrality.

Uzbekistan's Mighty Solar Furnace . Approaching the so-called "Institute of the Sun" often feels like walking into the lair of a James Bond villain, or some top-secret military installation you're not supposed to know about. In reality, this "Heliocomplex" is Uzbekistan's intriguingly strange Solar Furnace.

15 YEARS OF EXPERTISE IN THE SOLAR ENERGY MARKET. The La Solar Group group of companies, active in the US market since 2009, successfully entered the Uzbekistan market in 2022 under the SOLARA

UZBEKISTAN brand. Specializing in installing solar photovoltaic plants, we have become one of the industry leaders in a short period.
