

WIREs Energy and Environment is a review journal and part of the award-winning Wiley Interdisciplinary Reviews series. We cover key perspectives on the latest in energy innovation, environmental and climate impacts, and solutions for critical issues that matter most to our society's future, including energy policy, sustainable energy systems, and the circular economy.

Energy Technology is an applied energy journal that provides an interdisciplinary forum for researchers and engineers to share important progress in energy research. We publish articles from all perspectives on technical aspects of energy process engineering, covering the generation, conversion, storage, and distribution of energy.

Electrochemical energy storage is a global and highly interdisciplinary challenge. The combined special issue of Batteries & Supercaps and ChemSusChem highlights the great promise of two-dimensional materials for next-generation, high-performance energy storage technologies. The scope ranges from novel and emerging electrode materials, including ...

This work is performed to prepare new sponge nanocomposites for improving energy storage performance to satisfy cheap cost and high power. The sponge natural rubber/ethylene propylene diene rubber/hexagonal boron nitride (h-BN)/graphene oxide (GO) (NR/EPDM/h-BN/GO) nanocomposite-based supercapacitor demonstrates a high specific ...

We are excited to announce the launch of new journal: Energy Storage. Energy Storage provides a unique platform to present innovative research results and findings on all areas of energy storage. The journal covers novel energy ...

ENERGY STORAGE Written and edited by a team of well-known and respected experts in the field, this new volume on energy storage presents the state-of-the-art developments and challenges in the field of renewable energy systems for sustainability and scalability for engineers, researchers, academicians, industry professionals, consultants, and designers. The world's ...

Explore electrochemistry enabled energy conversion and storage technologies. Submission deadline: 30 June 2024. The special issue aims at all aspects of energy conversion and storage technologies based on ...

Carbon Energy is an open access energy technology journal publishing innovative interdisciplinary clean energy research from around the world.. The journal welcomes contributions detailing cutting-edge energy technology involving carbon utilization and carbon emission control, such as energy storage, photocatalysis, electrocatalysis, ...

Advanced Energy Materials, part of the prestigious Advanced portfolio, is your prime applied energy journal for research providing solutions to today's global energy challenges.. Your paper will make an impact in our ...

Advanced Energy Materials, part of the prestigious Advanced portfolio, is your prime applied energy journal for research providing solutions to today's global energy challenges.. Your paper will make an impact in our journal which has been at the forefront of publishing research on all forms of energy harvesting, conversion and storage for more than a decade.

The current energy storage system technologies are undergoing a historic transformation to become more sustainable and dynamic. Beyond the traditional applications of Battery Energy Storage Systems (BESSs), they have also emerged as a promising solution for some major operational and planning challenges of modern power systems and microgrids, e ...

Sierra Leone Urban Research Centre, Freetown, Sierra Leone. Search for more papers by this author. ... cultural, and environmental construct of urban spaces. A significant part of these data is "smart energy systems", often described as smart grid/technologies, and put simplistically, the smart city paradigm cannot be realised without ...

Dr. Ibrahim Dincer, Editor-in-Chief of Energy Storage, is a full professor of Mechanical Engineering at University of Ontario and adjunct professor at Faculty of Mechanical Engineering of Yildiz Technical University. Renowned for his pioneering works in the area of sustainable energy technologies he has authored/co-authored numerous books and book chapters, and many ...

World Young Scientist Summit - International Symposium on Carbon Energy and Wenzhou Academician Forum; 19-22 November, 2021; International Carbon Energy Symposium & Carbon Neutral Science Summit 2021; 15-18 November, 2019; Wiley-WZU 2019 International Symposium on Functional Materials for Energy Storage and Conversion
