

Who is cubic?

With this in mind, CUBIC was founded in 1973 based on a unique idea of a modular system for the construction of electrical panels. This idea has since the early start developed CUBIC into a global and recognized partner within electromechanics and with a product range that comprises any type of enclosure.

Where can cubic solutions be used?

Our solutions are used in the industry, in mining and in airports. We supply solutions to ships, data centers, hospitals, power plants, wind turbines, etc. All products from CUBIC have been tested and certified by several of the world's most recognized test laboratories.

What makes cubic unique?

The focus of CUBIC has always been on quality, reliability, relations, and our concept of product. These values form the agenda for our future voyage. However, the basis of our future voyage is still the solid foundation laid in 1973 that represents the essence of CUBIC.
