

The planned annual capacity of Zoolnasm's manufacturing facility includes 20 GWh of sodium-ion battery cells and 10 GWh of sodium-ion battery systems. Chinese sodium-ion battery startup Jiangsu Zoolnasm Energy Technology Co Ltd has begun construction of its first battery manufacturing site, marking an important event for the industry.

Chinese sodium-ion battery startup Jiangsu Zoolnasm Energy Technology Co Ltd has begun construction of its first battery manufacturing site, marking an important event for the industry. Zoolnasm's sodium-ion battery manufacturing base project in Guangde, Anhui province, officially began construction on November 19, the company announced yesterday.

The company earmarked 10 billion yuan (\$1.4 billion) to build on an area of 600 acres with access to the mighty Yangtze river. The first phase will cost 4 billion yuan with money likely coming through Zoolnasm's principal investor, Country Garden Venture Capital, the capital arm of real estate giant Country Garden.

The first phase will cost 4 billion yuan with money likely coming through Zoolnasm's principal investor, Country Garden Venture Capital, the capital arm of real estate giant Country Garden. Zoolnasm was founded in January 2021 with headquarters in Suzhou, Jiangsu province, east China.

With rising environmental requirements in mainstream markets, replacing lead-acid batteries in start-stop and automotive low-voltage battery solutions has become an industry trend, Zoolnasm said. The supply ...
